Version 06/2022

1070-12..._EN220523.indd

Product description

KL-1070-12 - Impact spanner set, 12-edge profile

Suitable for cardan shaft and brake calliper screw connections with double hexagon; for example, MAN; Mercedes-Benz; Renault; Volvo; DAF, as well as BPW and SAF axles.

The impact spanner set is particularly suitable for easy loosening and tightening of brake calliper bolts, even in hard-to-reach places.

The 3/4" square socket on the impact wrench and, due to the extended leverage, the engraved torque conversion formula, allow the bolted connection to be tightened professionally with a torque wrench.

Recommended accessories:

8563-10 - Torque spanner 155-760Nm

600 H-2000 - Metalworker's hammer 2kg

Scope of supply/component overview

Item	Part no.	Description	Qty.
A	KL-1070-1219	Impact spanner, 12-edge profile, SW 19	1
B	KL-1070-1221	Impact spanner, 12-edge profile, SW 21	1
C	KL-1070-1224	Impact spanner, 12-edge profile, SW 24	1

Specifications

Sizes:..... 19, 21, 24mm

Profile: 12-edge

Drive: 3/4"

⚠ Safety instructions and regulations

- Maintenance and repairs on motor vehicles may only be carried out by trained specialists in specialist automotive workshops, observing occupational safety and accident prevention as well as the vehicle manufacturer's instructions.
- Before use, make sure that the tool is undamaged. Replace damaged or worn parts.
- Always observe the vehicle-specific application procedures in the vehicle manufacturer's repair guide.
- Given vehicle-specific data are subject to change.

1: Typical application

2: KL-1070-1219

3: KL-1070-1221

4: KL-1070-1224

Torque conversion formula

CAUTION

When tightening a screw connection with the impact wrench, it is essential to recalculate the required torque using the torque conversion formula due to the extended leverage:

Overview impact wrench series

KL-1070-1219

Impact spanner, 12-edge profile, SW 19

Suitable for cardan shaft bolting with SK profile; for example, on MAN.

Specifications

Sizes: 19mm
Profile: Double hexagon
Drive: 3/4"
Length: 215mm

KL-1070-1221

Impact spanner, 12-edge profile, SW 21

Suitable for cardan shaft bolting with SK profile; for example, on Mercedes-Benz, Renault, Volvo, and DAF.

Specifications

Sizes: 21mm
Profile: Double hexagon
Drive: 3/4"
Length: 216mm

KL-1070-1224

Impact spanner, 12-edge profile, SW 24

Suitable for brake calliper bolts with SK profile; for example, on BPW and SAF axles.

Specifications

Sizes: 24mm
Profile: Double hexagon
Drive: 3/4"
Length: 219mm
