## NOCO BOOST MAXT CLAMPS

# **START DEAD BATTERIES.**Heavy-duty design for jump starting.

Rugged battery clamp design for 12V and 24V automotive, marine, RV, and truck applications.

A robust and rugged design to provide maximum current flow with minimal power loss. With the high current carrying ability, the GBC004 Boost MAX TM and GBC005 Boost MAXTM 72-inch Battery Clamps accessory has no-melt and smoke-free clamps that are reinforced with all metal construction.

Protects against reverse polarity, sparks, over-charging, over-current, open-circuits and over-heating.

## Heavy Duty Design

Our no-melt and smoke-free clamps are reinforced with all metal versus generic clamps all plastic construction.

Made from durable, high-performance 2AWG silicone wire that maintains its flexibility in cold weather environments.

The Boost  $\text{Max}^{\text{TM}}$  camlock cable connectors will not slip or disconnect from the GB500 when the cables are pulled.
